

**CPCU April 2021
Chapter Meeting Reminder
LOS ANGELES CHAPTER
OF THE CPCU SOCIETY**

VIRTUAL MEETING – Tuesday, April 13, 2021

The Los Angeles CPCU Society Chapter Officers and Directors
invite you to join us for a presentation by:

Nick Lamparelli – Partner, Co-Founder & CEO reThought Insurance

"Climate Change – How Insurance Organizations Need to Change With It"

Our Presenter

Nick Lamparelli is a 25 year veteran of insurance. From selling policies to underwriting them to providing capacity for them, Nick has been exposed to a wide cross section of the (re)insurance stack. For the past 15 years, Nick has been focused on the analysis, modeling and placement of complex properties exposed to natural catastrophe hazards. Four years ago, he co-founded reThought Insurance, a tech-centric MGA rethinking how insurance risks should be underwritten and traded. Since then, reThought has provided flood coverage for well-known underground exposures in NYC, over-water exposures in Boston and Philadelphia, and sports stadiums in Florida and Texas.

Nick is also a blogger and podcaster at Insurance Nerds, Coverager and starting in March 2021, will be host of a new podcast series entitled The Yellow Book Road, where he will dig in deep into applicable best practices from other industries that can be applied to insurance.

Save the Dates for 2021
